

THE BUSINESS CASE

for customized AI chatbots.

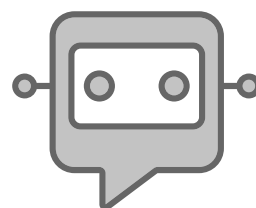

THE BENEFITS

It's a huge time-saver.

Automate repetitive questions, scheduling, and processes so your team can have more time to focus on high-value work.

Support ANY time of day.

Never leave your customers and online visitors hanging, no matter what time of day it is. Your custom chatbot will work while you sleep.

A better customer experience.

Time is money. Not just for you, but your customers as well. Your custom AI agent can answer simple questions QUICKLY, saving your customers time.

It's so easy to scale.

Whether you're dealing with 50 chats per week or 5,000 per day—your custom AI chatbot can handle it (the chatbot will learn faster with more data, too).

USE CASES

A SaaS company added an AI chatbot to their support FAQ...

it handled 70% of their customer service questions.

A life sciences company built a chatbot for their knowledge base...

it answers staff questions and trains the team.

A marketing agency added a chatbot to their lead capture form...

it sped up the sales process with warmer leads.

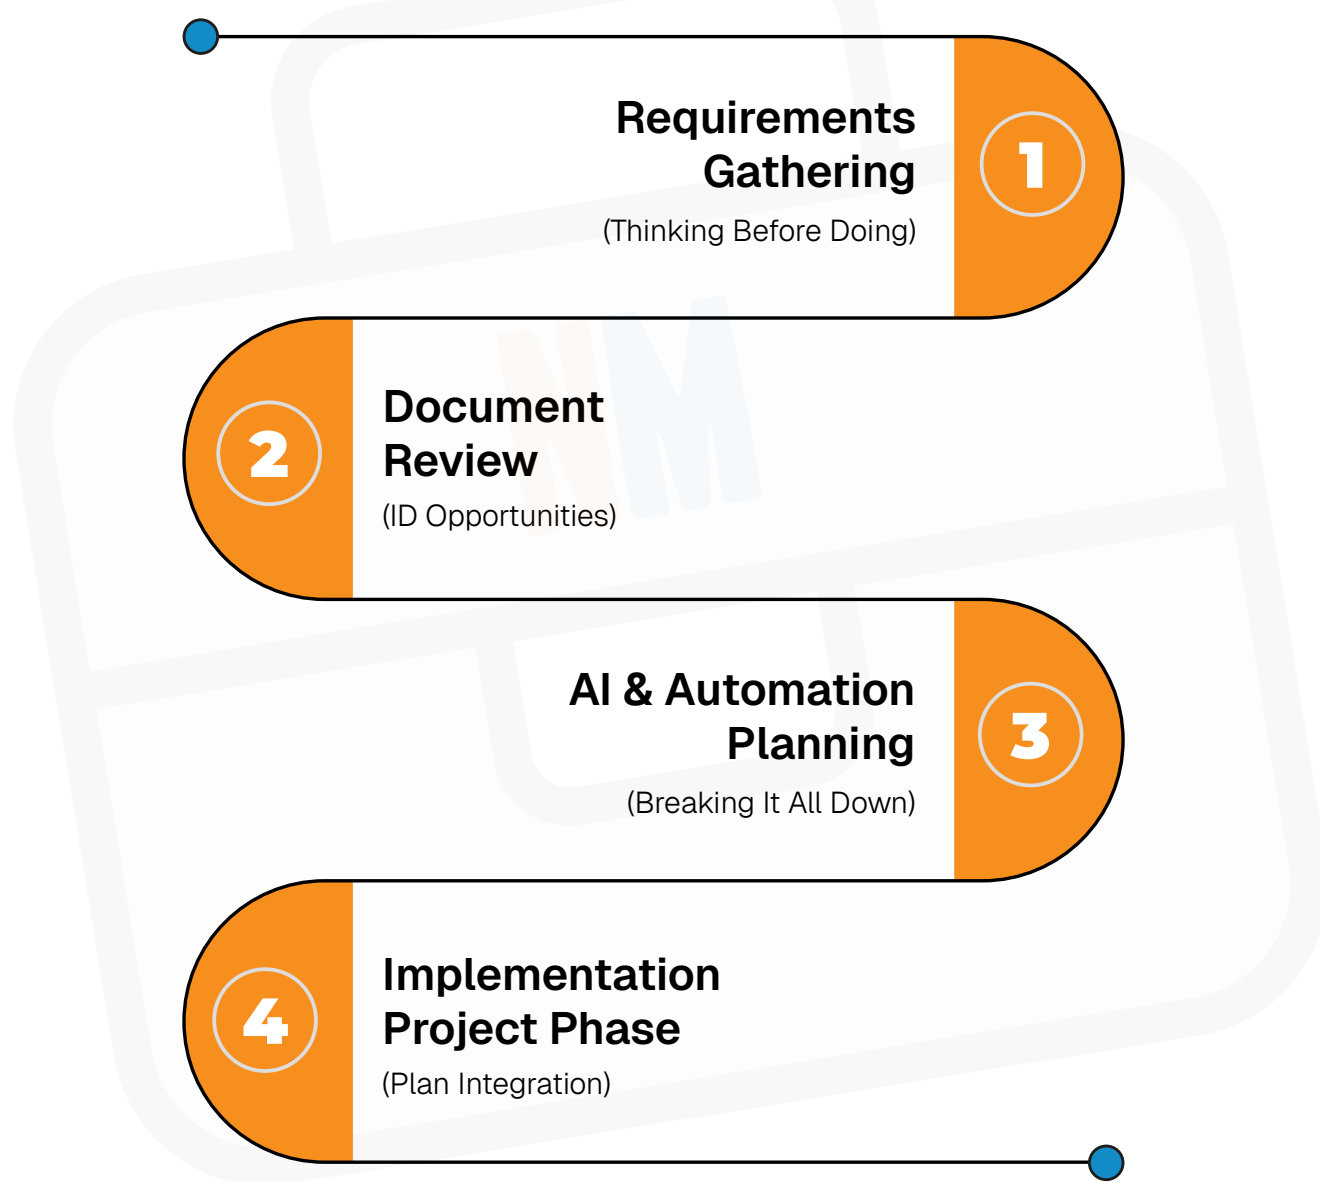

An eCommerce store added an AI agent to their website...

it helps customers make decisions about purchases.

Sometimes it's hard to know where to start.

This is why NerdyMind has a simple, thoughtful process that helps our customers navigate uncharted AI waters. It's a powerful tool, which makes it more and more important to use it with purpose. Discover how AI fits into your business with some NERDS!

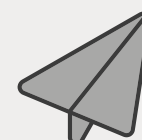

Contact the NERDS today.

We don't want to use AI just to use the "shiny new thing." We want to help companies figure out purposeful, impactful ways to use AI responsibly and efficiently. Schedule your discovery call today.
